Additional registration numbers	C1539
Employer or practitioner status	
Date of review	10/01/2026

Attestation

I have reviewed the POPProbe PPE inspection checklists and topic hub summary page listed on the accompanying written review. The checklists reflect current OSHA general-industry PPE standards (29 CFR 1910 Subpart I), current ANSI and ISEA standards for the covered protection types, and standard industry practice, subject to the specific corrections and observations noted in my written review.

I understand this attestation will be published as an editorial reviewer byline on the reviewed POPProbe pages and filed as the editorial record of this engagement.
